Dear Mr. Boyce:

Re: Tour of Tailings Pond, ACT/035/002

The Board of Oil, Gas and Mining is interested in the reclamation work being done by Kennecott on the tailings pond, and are pleased to accept your invitation to tour the project.

We will leave the Triad Center at 12:00 noon on November 13, 1987, and arrive at the Garfield Environmental Center at approximately 12:30 p.m. We will be in two vans that can be used during the tour. There will be approximately fifteen people on the tour, which we are scheduling an hour to accomplish, their names are listed on the attached sheet.

We will need a representative of Kennecott to take us around the dike and explain the work to us. It would be helpful if Paul Rokich could accompany us.

After visiting your site we will travel to Tooele and tour the Carr Fork reclamation project. As discussed with Donald Nagley, I will call Pete McCallum next week to make final arrangements.

We appreciate Kennecott's willingness to participate in this tour.

Sincerely,

Frank R. Jensen
Revegetation Specialist
